

1 February 2013

Revolymmer plc
(“Revolymmer” or “the Company”)
Notice of patent infringement proceedings

Revolymmer (AIM: REVO), the British polymer company developing patented products for a number of high value fast moving consumer goods (“FMCG”) and industrial markets, announces that on 29 January 2013, the Company received notification from Fertin Pharma A/S and Gumlink A/S of the commencement of patent infringement proceedings against the Company in connection with the sale of its nicotine gum in Canada.

Following professional advice, management considers at this stage that there are strong grounds for rebutting this action. Revolymmer accordingly intends to defend vigorously the Company’s position.

Revolymmer will issue a further announcement in the event that there are any material developments regarding this legal action.

Ends

About Revolymmer

Revolymmer is a technology company that designs, develops and formulates novel polymers to improve the performance of existing consumer products within the FMCG markets. Revolymmer's strategy is to generate significant and growing revenue streams by licensing its unique and proprietary technologies to manufacturers and marketers within the global high value FMCG industry. Current applications for the Group's technologies are in the coatings & adhesives, household products and personal care markets (together "Consumer Specialties") and the confectionery chewing gum and medicated chewing gum (together "Gum") markets.
