**About Revolymer**

Revolymer is a technology company that designs, develops and formulates novel polymers to improve the performance of existing consumer products within the FMCG and other industrial markets. Revolymer's strategy is to generate significant and growing revenue streams by licensing its unique and proprietary technologies to manufacturers and marketers within these global high value markets. Current applications for the Group's technologies are in the household products, personal care and coatings & adhesives markets (together "Consumer Specialties") and the medicated chewing gum and confectionery chewing gum (together "Gum") markets.
