### About Revolymer

Revolymer is a technology company that designs, develops and formulates novel polymers to improve the performance of existing consumer products within the fast moving consumer goods (FMCG) and other industrial markets. Revolymer aims to generate significant and growing high quality revenue streams by licensing its unique technologies to manufacturers and marketers within these markets. Potential applications for the business's technologies are in the household products, personal care and coatings & adhesives product areas (together "Consumer Specialties") and in medicated chewing gum (including nicotine gum) and confectionery chewing gum (together "Gum").
